PROFESSIONAL SUMMARY

I am a reliable and confident individual, recognized for a strong work ethic and a consistent commitment to exceeding expectations. I am a quick-thinking problem-solver who thrives on innovation, using a determined and gritty approach to overcome challenges and drive success. I foster collaboration by valuing input and maintaining high standards, even under pressure. I am now poised to contribute my skills and ambition to an organization where I can continue to grow and deliver exceptional value.

EDUCATION

Bachelor of Software Engineering

Jan 2021 - Oct 2025

Zambia University College of Technology, Ndola

Relevant Coursework: Multimedia, web Design, Networking, Database Systems, Mobile Application Development, Hardware, Computer systems Maintenance and hardware, software design, software management, distributed systems, advanced database, object-Orientated programming, Introduction to IT, Communication and Technical writing, Data communications and networks, software requirements, software testing.

Key Projects:

- Final year Project: Developed a Career Guidance system using Machine learning to assist students identify and predict accurate career paths.
- Machine Learning & AI: Developed a proprietary recommendation engine from the ground up using Python and Scikit-learn. Leveraged NLP techniques to parse and understand user-described skills and ambitions.
- Full-Stack Development: Built a responsive web interface with React and a robust RESTful API with Node.js/Flask, handling all data processing and model inference on the backend.
- Data Engineering: Sourced, cleaned, and pre-processed a heterogeneous dataset from public APIs (e.g., O*NET) to train the ML model, addressing challenges of data normalization and feature selection.
- Impact & Results: The final system successfully provided users with a ranked list of top 5 career matches, along with required skill gaps and market insights, demonstrating a tangible application of AI for social good.

Zambian School Certificate (Grade 12)

Examination Year: 2019

Mpongwe South Boarding Secondary School

EMPLOYMENT

Digitalization IT AID

Aug 2025 - Feb 2026

Occupational health and safety institute, kitwe

- Spearheaded the digital transformation of manual, paper-based occupational health and safety (OHS) processes, including incident reporting, risk assessments, and medical surveillance records, onto a centralized digital platform.
- Organized and managed large volumes of data on company database systems -Contributed to the overall efficiency and accuracy of operational processes.

IT & Business Development Assistant

Jun 2022 - May 2024

RASO Mine ltd, Ndola

- Provided comprehensive technical support to staff, troubleshooting hardware, software, and network issues to ensure seamless daily operations.
- Provided first-line support for hardware and software issues in an industrial environment.
- Leveraged technical expertise to prepare compelling sales presentations and demonstrations for clients, effectively communicating the company's value proposition.
- Acted as a point of contact for potential clients, utilizing strong communication skills to understand their needs and present company offerings.
- Assisted in maintaining user accounts and IT security protocols, ensuring a secure and reliable technological environment.
- Managed the setup, configuration, and maintenance of desktops, laptops, and printers, minimizing downtime for the sales and management teams.

Lead Software Engineer & Systems Architect (Contract based).

October 2025 – Merch 2026

Commonwealth RB, Ndola

- Built and designed the company's front-end website from scratch, handling UX/UI design through to implementation
- Spearheaded the conceptualization, system design, and full-stack development of the official enterprise website platform from scratch, aligning technological solutions with organizational goals.
- Architected a modular, highly available system topology using microservices/RESTful APIs, optimizing server-side processing and ensuring minimal latency under high concurrent user traffic.
- Supervised the development lifecycle and engineered a highly responsive, secure user interface utilizing modern JavaScript frameworks, backed by a robust, secure database schema design.
- Integrated enterprise-grade authentication protocols, role-based access control (RBAC), and multi-layered data encryption mechanisms to safeguard sensitive organizational data.

- Orchestrated the deployment strategy using cloud infrastructure, leveraging containerization and automated CI/CD pipelines to ensure seamless, zero-downtime updates and reliable system performance.

IT Infrastructure Administer & Systems Security Engineer (Contract Based) May 2026 – August 2026
Creative Touch Branding, Kitwe

- Engineered and setup installation of CCTV security footprint and deploying, configuring enterprise Hikvision hardware; established isolated network subnets, secure IP routing, and centralized storage configurations to maintain fault-tolerant, high-bandwidth surveillance feeds across the company premises.
- Designed, installed, and configured the company's biometric fingerprint scanner hardware from the ground Up and engineered the access control system by linking physical authentication nodes with Hikvision iVMS software and implementing custom database schema configurations to automate personnel access logging, audit trails, and employee check-in/check-out tracking.
- Designed and configured an executive command node featuring centralized multi-screen endpoint monitoring, client-side telemetry tracking, and administrative privileges to oversee workstation activities across the enterprise network.
- Configured and deployed local server systems, establishing baseline security protocols, role-based access control (RBAC), user account management, and optimized data routing to ensure high network uptime and reliability.
- Executed system-wide security hardening, incorporating encrypted communication streams between security hardware and central servers, endpoint privilege management, and automated failover logging to protect internal operational data.

SKILLS

➤ MCSD, CSSLP	➤ Very good
➤ Networking: Cisco Networking	➤ Very good
➤ Database design and administration: MSSQL, MySQL, PostgreSQL	➤ Excellent
➤ Mobile application development: Android/IOS	➤ Very good
➤ PHP, Java, Java Script, HTML, CSS, Net Platform, C++, Python	➤ Excellent
➤ Version control systems: SVN, CVS, Git	➤ Very good
➤ Experience in Linux and Windows systems	➤ Excellent
➤ Software & Tools: Microsoft Office Suite, Photoshop, Canva	➤ Very good

SOFT SKILLS

➤ Leadership	➤ Excellent
➤ Creativity	➤ Very good
➤ Problem-Solving	➤ Very good
➤ Programming & Coding	➤ Excellent
➤ Time Management	➤ Excellent
➤ Effective Communication	➤ Very good
➤ Critical Thinking	➤ Very good
➤ Social Skills	➤ Very good
➤ Fast Learner	➤ Very good
➤ Grit	➤ Very good
